### **Directors' report**

The directors present their report and the audited consolidated financial statements for the year ended 31 December 2019.

#### Principal activities

The group's principal activity is the operation of a hotel and the holding of investments.

The parent company's principal activities, which are unchanged since last year, are that of holding investments in various subsidiary undertakings.

#### **Review of the business**

#### The parent company

During the current financial year the company received gross dividends amounting to €300,000 and €1.8 million from its subsidiary and associate respectively (2018: just €1.8 million) from the associate.

During the year, the company sold its shareholding in Kemmuna Limited for a gain of €10.2 million. In the group's financial statements the gain from this disposal amount to €12.1 million and has been presented within 'share of profit associates'.

#### The Group

The Group's results are primarily influenced by the activities of the Waterfront Hotel. During 2019, the hotel's revenue for the year increased by nearly 8% over 2018 results, closing the year with a total revenue of €6,917,634, primarily due to the investment undertaken by the hotel in 2018 in the refurbishment of 11 Suite rooms. The hotel achieved a gross profit of €3,065,975 for 2019 (2018: €2,918,861) whilst administrative costs increased to €1,523,895 (2018: €1,221,136). Finance costs decreased primarily due to accelerated repayments of group loans. After taking into consideration financing costs the hotel ended the current financial year in a net profit position of €1,391,886 (2018: €1,494,579).

Following the refurbishment undertaken by the hotel in 2017 and 2018 no major capital expenditure was undertaken during 2019 and property, plant and equipment decreased in value in line with depreciation for the year. During the year the hotel repaid €1,314,923 in loan principals for borrowing obtained from the bank and related party forming part of Mizzi Organisation.

#### Outlook for 2020

With effect from March 2020 onwards, the outbreak of COVID-19 impacted negatively a number of operations of companies within the Mizzi Organisation. Whilst some sectors and certain companies were hit worse than others, Group management invested substantial efforts to safeguard as many jobs as possible and ensure survival of all the respective companies within the Organisation. The hospitality industry was brought to a standstill as a result of the airport closure and other measures introduced by Government. The hotel lost all its principal source of income for a period of around 4 months. On a positive note, the hotel managed to remain operative up to a certain extent, having been awarded contracts to provide alternative accommodation to front liners assisting patients infected by the virus.

All companies forming part of the Organisation embarked on a cost-cutting exercise in areas such as payroll costs, direct departmental costs together with selling and administrative expenses. Particular emphasis has also been placed on the credit control function so as to ensure cash receipts from customers and debtors are flowing in regularly and in a sustained manner in order to meet cash outflows. Revised favourable credit term arrangements were negotiated with a number of suppliers, though substantially no concessions were granted to the Organisation by its property lessors.

### Directors' report - continued

On a group wide basis, the Mizzi Organisation took a number of initiatives to ensure effective management of available liquidity to fund the requirements of all operations impacted by COVID-19. The Organisation managed to secure favourable arrangements with banks in relation to the postponement of bank loan repayments and with suppliers in relation to the postponement of major capital expenditure payments. A number of Organisation companies have taken advantage of available Government aid, such as the deferral of VAT and tax payments, wage supplement schemes and quarantine leave supplements. The Organisation also encouraged utilisation of vacation leave to decrease accruals in this regard.

In view of the current situation brought about by the COVID-19 pandemic, the Organisation has prepared detailed financial and cash flow projections covering all its business lines for the financial years ended 31 December 2020 and 2021, based on historical financial information registered to date during 2020 and forecasts, factoring in the disorder created by the COVID-19 pandemic. These projections have been compiled as part of the preparation of a revised business plan. The projections are based on pessimistic assumptions for the base case scenario, reflecting the anticipated dismal performance during 2020 of specific Organisation business lines referred to above, with a gradual recovery in performance for the automotive, hotel, retail and catering businesses throughout 2021. The projected 2021 financial results for the core businesses within the Organisation are assumed to be significantly lower when compared to 2019 financial results. The projections also contemplate a stressed case scenario with sever business conditions throughout 2021. The cash flow projections take into account the financial support secured by the Organisation under the COVID-19 guarantee scheme managed by the Malta Development Bank. The sanction letters in the name of Mizzi Organisation Limited for the secured additional facilities amounting to €12 million in aggregate, have been approved and issued by the respective banks. These funds will assist the Organisation in honouring committed capital expenditure and commitments with trade creditors.

The forecast for 2020 contemplates the projected existence of a significant liquidity buffer at the end of the year notwithstanding the expected adverse financial results, whilst positive cash flow generation is anticipated for 2021. The directors are further encouraged that as at the date of approval of these financial statements, all the business units of the Group are back in business and fully operational within the restrictions and guidelines issued by the Health Authorities. Furthermore, as business started to pick up gradually during the recent months, it was noted that actual performance across all business segments has been better than that forecasted within the 2020 projection.

Assuming stressed conditions are experienced throughout 2021, such that the projected financial results from the automotive business, the hotel, the retail and catering businesses are subdued in line with 2020 performance, whilst simultaneously projected property sales do not materialise, the Organisation would still be in a position to fund its group wide operations taking cognisance of liquidity available.

The Boards of Directors of Mizzi Organisation Limited and of the companies constituting the Mizzi Organisation feel confident that with the measures taken, the secured financing arrangements and the diversity of the Organisation's business lines, the companies within the Organisation shall overcome the disruptions brought about by this pandemic. The directors consider the Organisation and all Organisation companies to be a going concern. Hence the going concern assumption in the preparation of these financial statements is considered appropriate and there are no material uncertainties which may cast significant doubt about the ability of the Organisation and its companies to continue operating as a going concern.

#### Financial risk management

In 2019, there has been no change in the Group's and parent company's financial risk management objectives and policies, details of which, together with further information on the Group's and the parent company's risk exposures can be found in Note 3 to the financial statements.

#### **Results and dividends**

The consolidated financial results are set out on page 11. No dividends have been proposed or paid this year. The directors propose that the balance of retained earnings amounting to  $\in$  34,092,993 (2018:  $\notin$  20,181,896) be carried forward to the next financial year.

### Directors' report - continued

#### Directors

The directors of the parent company who held office during the year were:

Maurice F. Mizzi Brian R. Mizzi Ian Mizzi Kenneth C. Mizzi Veronica Mizzi Angele Calleja Christopher Mizzi

The parent company's Articles of Association do not require any directors to retire.

### Statement of directors' responsibilities for the financial statements

The directors are required by the Maltese Companies Act (Cap. 386) to prepare financial statements which give a true and fair view of the state of affairs of the Group and the parent company as at the end of each reporting period and of the profit or loss for that period.

In preparing the financial statements, the directors are responsible for:

- ensuring that the financial statements have been drawn up in accordance with International Financial Reporting Standards as adopted by the EU;
- selecting and applying appropriate accounting policies;
- making accounting estimates that are reasonable in the circumstances;
- ensuring that the financial statements are prepared on the going concern basis unless it is inappropriate to presume that the group and the parent company will continue in business as a going concern.

The directors are also responsible for designing, implementing and maintaining internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and that comply with the Maltese Companies Act (Cap. 386). They are also responsible for safeguarding the assets of the group and the parent company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements of Consolidated Holdings Limited for the year ended 31 December 2019 are included in the Annual Report and Consolidated Financial Statements 2019, which is published in hard-copy printed form and made available on the Mizzi Organisation website (www.mizziorganisation.com). The directors of the entities constituting the Mizzi Organisation are responsible for the maintenance and integrity of the Annual Report on the website in view of their responsibility for the controls over, and the security of, the website. Access to information published on the Organisation's website is available in other countries and jurisdictions, where legislation governing the preparation and dissemination of financial statements may differ from requirements or practice in Malta.

### Directors' report - continued

#### Auditors

PricewaterhouseCoopers have indicated their willingness to continue in office and a resolution for their reappointment will be proposed at the Annual General Meeting.

On behalf of the board

# Independent auditor's report

To the Shareholders of Consolidated Holdings Limited

#### Report on the audit of the financial statements

#### Our opinion

#### In our opinion:

- Consolidated Holdings Limited's Group financial statements and parent company financial statements (the "financial statements") give a true and fair view of the Group's and the parent company's financial position as at 31 December 2019, and of the Group's and parent company's financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards ('IFRSs') as adopted by the EU; and
- The financial statements have been prepared in accordance with the requirements of the Maltese Companies Act (Cap. 386).

#### What we have audited

Consolidated Holdings Limited's financial statements, set out on pages 9 to 63, comprise:

- the consolidated and parent company statements of financial position as at 31 December 2019;
- the consolidated and parent company statements of income and comprehensive income for the year then ended;
- the consolidated and parent company statements of changes in equity for the year then ended;
- the consolidated and parent company statements of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the group and the parent company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements of the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) that are relevant to our audit of the financial statements in Malta. We have fulfilled our other ethical responsibilities in accordance with these Codes.

#### Emphasis of matter

We draw attention to Note 32 in the financial statements, which describes the directors' assessment on the implications that COVID-19 had on the group and the company. This matter is considered to be of fundamental importance to the understanding of the financial statements due to its nature and significance. Our opinion is not modified in respect of this matter.

# Independent auditor's report - continued

To the Shareholders of Consolidated Holdings Limited

### Other information

The directors are responsible for the other information. The other information comprises the Directors' report (but does not include the financial statements and our auditor's report thereon).

Our opinion on the financial statements does not cover the other information, including the directors' report.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the directors' report, we also considered whether the directors' report includes the disclosures required by Article 177 of the Maltese Companies Act (Cap. 386).

Based on the work we have performed, in our opinion:

- The information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with the Maltese Companies Act (Cap. 386).

In addition, in light of the knowledge and understanding of the Group and the parent company and its environment obtained in the course of the audit, we are required to report if we have identified material misstatements in the directors' report and other information that we obtained prior to the date of this auditor's report. We have nothing to report in this regard.

# Responsibilities of the directors and those charged with governance for the financial statements

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs as adopted by the EU and the requirements of the Maltese Companies Act (Cap. 386), and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group on the parent company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the group's financial reporting process.

s

# Independent auditor's report - continued

To the Shareholders of Consolidated Holdings Limited

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group and the parent company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's on the parent company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Group and the parent company's ability to continue as a going concern. In particular, it is difficult to evaluate all of the potential implications that COVID-19 will have on the group's trade, customers, suppliers and the disruption to its business and the overall economy.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Independent auditor's report - continued

To the Shareholders of Consolidated Holdings Limited

### Report on other legal and regulatory requirements

Other matters on which we are required to report by exception

We also have responsibilities under the Maltese Companies Act (Cap. 386) to report to you if, in our opinion:

- Adequate accounting records have not been kept, or that returns adequate for our audit have not been received from branches not visited by us.
- The financial statements are not in agreement with the accounting records and returns.
- We have not received all the information and explanations we require for our audit.

We have nothing to report to you in respect of these responsibilities.

The notes on pages 17 to 63 are an integral part of these consolidated financial statements.

#### Notes to the financial statements

#### 1. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### 1.1 Basis of preparation

The consolidated financial statements include the financial statements of Consolidated Holdings Limited and its subsidiary. These financial statements are prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU and the requirements of the Maltese Companies Act (Cap. 386). They have been prepared under the historical cost convention, as modified by the fair valuation of the land and buildings category of property, plant and equipment, and financial assets measured at fair value through other comprehensive income.

The preparation of financial statements in conformity with IFRSs as adopted by the EU requires the use of certain accounting estimates. It also requires the directors to exercise their judgement in the process of applying the group's accounting policies (see Note 4 - Critical accounting estimates and judgements).

#### Corporate restructuring

During the current financial year, Consolidated Holdings Limited acquired the shares of Legacy Contractors Limited, formerly a subsidiary of Mizzi Organisation Limited, a related party forming part of Mizzi Organisation, for a consideration of €85,961, as part of a corporate restructuring within the Mizzi Organisation.

All the entities constituting the Mizzi Organisation are ultimately fully owned and controlled by the same members of the Mizzi family. Accordingly, the transaction referred to above involve an entity under common control, whereby the involved entity is controlled by the same parties before and after the transaction, and that control is not transitory. The key feature of a transaction among entities under common control is that there is no change in the ultimate ownership of the entities involved as a result of the transaction. Control is exercised by a group of individuals that are all part of the same close family group when they have the collective power to govern the financial and operating policies of the respective entities which are involved in the transactions.

For the purposes of preparing these consolidated financial statements, Consolidated Holdings Limited has applied the predecessor method of accounting to reflect the transaction referred to above involving an entity under common control. Accordingly, Consolidated Holdings Limited:

- a) recorded the disposal transactions as if they had already taken place at the beginning of the earliest period presented within the financial statements, i.e. 1 January 2018;
- eliminated the assets and liabilities attributable to the entities disposed of using predecessor book values derived from the financial statements of the entities disposed of with the elimination being already reflected at the beginning of the earliest period presented;
- c) eliminated the financial results registered by the entities disposed of during the years ended 31 December 2019 and 2018; and
- d) reflected the difference between the consideration and the aggregate book value of the assets and liabilities attributable to the entities disposed of as adjustments to equity.

#### 1.1 Basis of preparation - continued

The impacts of the application of the predecessor accounting treatment described highlighted above on the consolidated financial position of Consolidated Holdings Limited are reflected in the table below:

	31 December 2018 €	1 January 2018 €
Inventories Trade and other receivables Current tax assets Cash and cash equivalents Trade and other payables	46,486 58,079 12,589 204,345 (278,002)	99,748 212,255 9,735 140,073 (304,518)
Net assets	43,497	157,293
Represented by: Retained earnings	43,497	157,293

The effects of the application of the predecessor accounting treatment highlighted above on the consolidated financial results for the year ended 31 December 2018 are reflected in the table below:

	31 December 2018 €
Revenue	23,207
Cost of sales	(75,868)
Gross profit	(52,661)
Selling and other direct expenses	(7,174)
Administrative expenses	(12,097)
Operating loss	(71,932)
Finance costs	(186)
Loss before tax	(72,118)
Taxation	22,802
Loss for the year	(49,316)

#### Standards, interpretations and amendments to published standards effective in 2019

In 2019, the group adopted new standards, amendments and interpretations to existing standards that are mandatory for the Group's accounting period beginning on 1 January 2019. The adoption of these revisions to the requirements of IFRSs as adopted by the EU resulted in changes to the Group's accounting policies impacting the Group's financial performance and position. The Group had to change its accounting policies and make retrospective adjustments as a result of adopting IFRS 16, 'Leases', but recognised the cumulative effect of initially applying the new standard on 1 January 2019. The new accounting policies are disclosed in Note 1.18 below. The impact of the adoption of this standard is disclosed in Note 2. The other standards did not have any impact on the Group's accounting policies.

#### **1.1 Basis of preparation** - continued

#### Standards, interpretations and amendments to published standards that are not yet effective

Certain new standards, amendments and interpretations to existing standards have been published by the date of authorisation for issue of these financial statements but are mandatory for the Group's accounting periods beginning after 1 January 2019. The Group has not early adopted these revisions to the requirements of IFRSs as adopted by the EU and the Group's directors are of the opinion that there are no requirements that will have a possible significant impact on the Group's financial statements in the period of initial application.

#### 1.2 Consolidation

#### (a) Subsidiaries

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are de-consolidated from the date that control ceases.

The Group uses the acquisition method of accounting to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in profit or loss.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

In the company's separate financial statements, investments in subsidiaries are accounted for by the cost method of accounting, i.e. at cost less impairment. Provisions are recorded where, in the opinion of the directors, there is an impairment in value. Where there has been an impairment in the value of an investment, it is recognised as an expense in the period in which the diminution is identified. The results of subsidiaries are reflected in the company's separate financial statements only to the extent of dividends receivable. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to profit or loss.

#### (b) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. In the consolidated financial statements, investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Group's investment in associates includes goodwill identified on acquisition, net of any accumulated impairment losses.

#### **1.2 Consolidation** - continued

(b) Associates - continued

The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition other comprehensive income is recognised in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

In the company's separate financial statements, investments in associates are accounted for by the cost method of accounting, i.e. at cost less impairment. Provisions are recorded where, in the opinion of the directors, there is an impairment in value. Where there has been an impairment in the value of an investment, it is recognised as an expense in the period in which the diminution is identified. The results of associates are reflected in the company's separate financial statements only to the extent of dividends receivable. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to profit or loss.

#### 1.3 Foreign currencies

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in euro, which is the Group's functional currency and the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

#### 1.4 Property, plant and equipment

All property, plant and equipment is initially recorded at historical cost. Land and buildings are subsequently shown at fair value, based on periodic valuations by professional valuers, less subsequent depreciation for buildings. Valuations are carried out on a regular basis such that the carrying amount of property does not differ materially from that which would be determined using fair values at the end of the reporting period. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net amount is restated to the revalued amount of the asset. All other property, plant and equipment is subsequently stated at historical cost less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Borrowing costs which are incurred for the purpose of acquiring or constructing a qualifying asset are capitalised as part of its cost. Borrowing costs is ceased once the asset is substantially complete and is suspended if the development of the asset is suspended.

#### 1.4 Property, plant and equipment - continued

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of land and buildings are credited to other comprehensive income and shown as a revaluation reserve in shareholders' equity. Decreases that offset previous increases of the same asset are charged in other comprehensive income and debited against the revaluation reserve; all other decreases are charged to profit or loss. Each year the difference between depreciation based on the revalued carrying amount of the asset (the depreciation charged to profit or loss) and depreciation based on the asset's original cost, net of any related deferred income taxes, is transferred from the revaluation reserve to retained earnings.

Depreciation is calculated using the straight-line method to allocate the cost or revalued amounts of the assets to their residual values over their estimated useful lives, as follows:

	%
Buildings	2
Furniture, fittings and equipment	10 - 331⁄3
Operational equipment	15 - 331⁄3
Motor vehicles	25

Freehold land is not depreciated as it is deemed to have an indefinite life.

No depreciation is charged on linen, crockery, cutlery, glassware, uniforms and hotel loose tools. Normal replacements are charged to profit or loss.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Property, plant and equipment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are Grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Property, plant and equipment that suffered an impairment is reviewed for possible reversal of the impairment at the end of each reporting period.

Gains and losses on disposals of property, plant and equipment are determined by comparing proceeds with carrying amount and are recognised in profit or loss. When revalued assets are disposed of, the amounts included in the revaluation reserve relating to the assets are transferred to retained earnings.

#### 1.5 Intangible assets

#### Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary/associate at the date of acquisition. Goodwill on acquisitions of subsidiaries is included in 'Intangible assets'. Goodwill on acquisitions of associates is included in 'Investments in associates'. Separately recognised goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

~ (

#### 1.5 Intangible assets - continued

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. A cash-generating unit to which goodwill has been allocated shall be tested for impairment annually, and whenever there is an indication that the unit may be impaired by comparing the carrying amount of the unit, including the goodwill, with the recoverable amount of the unit. The recoverable amount is the higher of fair value less costs to sell and value in use.

#### 1.6 Financial assets

#### Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income (OCI). For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

#### **Recognition and derecognition**

The Group recognises a financial asset in its statement of financial position when it becomes a party to the contractual provisions of the instrument.

Regular way purchases and sales of financial assets are recognised on settlement date, the date on which an asset is delivered to or by the Group. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership or has not retained control of the asset.

#### Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payments of principal and interest.

#### **1.6 Financial assets** - continued

#### (a) Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group may classify its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented in the statement of profit or loss.
- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest income from these financial assets is included in finance income using the effective interest rate method. Impairment losses are presented in the statement of profit or loss.
- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss in the period in which it arises.

#### (b) Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Organisation's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in the income statement as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

#### Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables and contract assets, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables (see Note 3 for further details).

#### **1.7 Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the firstin, first-out method. The cost of inventories comprises the invoiced value of goods and, in general, includes transport and handling costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

#### **1.8** Trade and other receivables

Trade receivables comprise amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less expected credit loss allowances.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Organisation holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

#### 1.9 Cash and cash equivalents

In the statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks and bank overdrafts. The bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

#### 1.10 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### 1.11 Financial liabilities

The Group recognises a financial liability in its statement of financial position when it becomes a party to the contractual provisions of the instrument. The Group's financial liabilities are classified as financial liabilities measured at amortised cost, i.e. not at fair value through profit or loss under IFRS 9. Financial liabilities not at fair value through profit or loss are recognised initially at fair value, being the fair value of consideration received, net of transaction costs that are directly attributable to the acquisition or the issue of the financial liability. These liabilities are subsequently measured at amortised cost. The Group derecognises a financial liability from its statement of financial position when the obligation specified in the contract or arrangement is discharged, cancelled or expires.

#### 1.12 Trade and other payables

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

#### 1.13 Borrowings

Borrowings are recognised initially at the fair value of proceeds received, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting period.

#### 1.14 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

#### 1.15 Current and deferred tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity respectively.

Deferred tax is recognised in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

The principal temporary differences arise from the fair valuation of land and buildings category of property, plant and equipment, depreciation on property, plant and equipment and provisions for impairment of trade and other receivables. Deferred tax on the fair valuation of property, plant and equipment is charged or credited directly to the revaluation reserve. Deferred tax on the difference between the actual depreciation on the asset and the equivalent depreciation based on the historical cost of the asset is realised through profit or loss.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### 1.16 Revenue recognition

Revenues include all revenues from the ordinary business activities of the Group. Ordinary activities do not only refer to the core business but also to other recurring sales of goods or rendering of services. Revenues are recorded net of value added tax.

#### (a) Sale of goods and services

Revenues are recognised in accordance with the provision of goods or services, provided that collectability of the consideration is probable.

IFRS 15 requires that at contract inception the goods or services promised in a contract with a customer are assessed and each promise to transfer to the customer the good or service is identified as a performance obligation. Promises in a contract can be explicit or implicit if the promises creates a valid expectation to provide a good or service based on the customary business practices, published policies, or specific statements.

A contract asset must be recognised if an entity forming part of the Group recorded revenue for fulfillment of a contractual performance obligation before the customer paid consideration or before - irrespective of when payment is due - the requirements for billing and thus the recognition of a receivable exist.

A contract liability must be recognised when the customer paid consideration or a receivable from the customer is due before the Group fulfilled a contractual performance obligation and thus recognised revenue.

Multiple-element arrangements involving the delivery or provision of multiple products or services must be separated into distinct performance obligations, each with its own separate revenue contribution that is recognised as revenue on fulfillment of the obligation to the customer. The total transaction price of a bundled contract is allocated among the individual performance obligations based on their relative - possibly estimated - standalone selling prices, i.e., based on a ratio of the standalone selling price of each separate element to the aggregated standalone selling prices of the contractual performance obligations.

#### Sales from goods and services

The services offered by the Group primarily relate to services within the hospitality activity. Revenue from such services is recognised when the service is performed and/or when the goods (primarily food and beverage relating to restaurant and bar sales) are supplied upon performance of the service. Revenue is usually in cash, credit card or on credit.

#### Contracts - where revenue is recognised over time

When the outcome of a contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable; and contract costs are recognised when incurred.

When the outcome of a contract can be estimated reliably and it is probable that the contract will be profitable, contract revenue and contract costs are recognised over the period of the contract, respectively, as revenue and expenses. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

#### 1.16 Revenue recognition - continued

The Group uses the 'percentage of completion method' to determine the appropriate amount of revenue and costs to recognise in a given period. The stage of completion is measured by reference to the proportion of contract costs incurred for work performed up to the end of the reporting period in relation to the estimated total costs for the contract. Costs incurred during the year that relate to future activity on a contract are excluded from contract costs in determining the stage of completion and are shown as contract work in progress within inventories.

The aggregate of the costs incurred and the profit or loss recognised on each contract is compared against the progress billings up to the end of the reporting period. The Group presents as a contract asset the gross amount due from customers for contract work for all contracts in progress for which costs incurred plus recognised profits (less recognised losses) exceed progress billings, within trade and other receivables. The Group presents as a contract liability the gross amount due to customers for contract work for all contracts in curred plus recognised profits (less recognised losses) exceed costs incurred plus recognised progress for which progress billings exceed costs incurred plus recognised profits (less recognised losses), within trade and other payables.

IFRS 15 provides more detailed guidance on how to account for contract modifications. Changes must be accounted for either as a retrospective change (creating either a catch up or deferral of previously recorded revenues), prospectively with a reallocation of revenues amongst identified performance obligations, or prospectively as separate contracts which will not require any reallocation.

#### Financing

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

#### (b) Interest income

Interest income is recognised in profit or loss for all interest-bearing instruments as it accrues using the effective interest method.

- (c) Dividend income is recognised when the right to receive payment is established.
- (d) Other operating income is recognised on an accrual basis unless collectibility is in doubt.

#### 1.17 Customer contract assets and liabilities

The timing of revenue recognition may differ from customer invoicing. Trade receivables presented in the statement of financial position represent an unconditional right to receive consideration (primarily cash), i.e. the services and goods promised to the customer have been transferred.

By contrast, contract assets mainly refer to amounts allocated per IFRS 15 as compensation for goods or services provided to customers for which the right to collect payment is subject to providing other services or goods under that same contract. Contract assets, like trade receivables, are subject to impairment for credit risk. The recoverability of contract assets is also verified, especially to cover the risk of impairment should the contract be interrupted.

#### 1.17 Customer contract assets and liabilities - continued

Contract liabilities represent amounts paid by customers before receiving the goods and/or services promised in the contract. This is typically the case for advances received from customers or amounts invoiced and paid for goods or services not transferred yet (previously recognised in deferred income).

#### 1.18 Leases

A lease is an agreement whereby the lessor conveys to the lessee in return for a payment, or a series of payment, the right to use an asset for an agreed period of time.

#### The Group undertaking is the lessee

At inception of a contract, an entity shall assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As explained in Note 1.1 above, the Group has changed its accounting policy for leases where the Group is the lessee. The impact of the change is described in Note 2.

Until 31 December 2018, leases of assets in which a significant portion of the risks and rewards of ownership were effectively retained by the lessor were classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

With effect from 1 January 2019, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (Including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

#### 1.18 Operating leases - continued

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, where there is no third party financing; and
- makes adjustments specific to the lease, eg term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received; and
- any initial direct costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The lease term is reassessed if an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

#### 1.19 Borrowing costs

Borrowing costs which are incurred for the purpose of acquiring or constructing qualifying property, plant and equipment are capitalised as part of its cost. Borrowing costs are capitalised while acquisition or construction is actively underway, during the period of time that is required to complete and prepare the asset for its intended use. Capitalisation of borrowing costs is ceased once the asset is substantially complete and is suspended if the development of the asset is suspended. All other borrowing costs are expensed. Borrowing costs are recognised for all interest-bearing instruments on an accrual basis using the effective interest method. Interest costs include the effect of amortising any difference between initial net proceeds and redemption value in respect of interest-bearing borrowings.

#### 1.20 Dividend distribution

Dividend distribution to the Group's shareholders is recognised as a liability in the financial statements in the period in which the dividends are approved by the shareholders.

#### 2. Changes in accounting policies

This note explains the impact of the adoption of IFRS 16 'Leases' on the Group's financial statements.

As indicated in Note 1.1 above, the Group has adopted IFRS 16 retrospectively from 1 January 2019 but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard.

The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening balance sheet on 1 January 2019. The new accounting policies are disclosed in Note 1.18.

(a) The Group's leasing activities

The Group leases motor vehicles from a related party forming part of Mizzi Organisation. Rental contracts are typically made for fixed periods of 5 to 6 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants. Leased assets may not be used as security for borrowing purposes.

Extension and termination options are included in the majority of the Group's motor vehicles leases. These terms are used to maximise operational flexibility in respect of managing contracts. The majority of extension and termination options held are exercisable only by the Group and not by the respective lessor. In respect of the majority of lease arrangements, the extension periods have been included in determining lease term for the respective arrangement.

(b) Adjustments recognised upon adoption of IFRS 16 in the statement of financial position on 1 January 2019

On adoption of IFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as "operating leases" under the principles of IAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on 1 January 2019 was 2%.

The associated right-of-use assets for leases were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to those leases recognised in the balance sheet as at 31 December 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

The change in accounting policy affected the following items in the balance sheet on 1 January 2019:

- right-of-use assets, increase by €72,052

- lease liabilities, increase by €72,052

The recognised right-of-use assets relate to motor vehicles:

	As at 1 January
	2019 €
Motor vehicles - Total right-of-use assets	72,052

#### 2. Changes in accounting policies - continued

#### Measurement of lease liabilities

	As at 1 January 2019 €
Operating lease commitments disclosed as at 31 December 2018	11,347
Add: adjustments as a result of different treatment of extensions	65,451
Discounted using the incremental borrowing rate at the date of initial application	(4,746)
Lease liabilities recognised as at 1 January 2019	72,052
Of which are classified as:	15,305
Current lease liabilities	56,747
Non-current lease liabilities	72,052

#### Practical expedients applied

In applying IFRS 16 for the first time, the entities within the Group have has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- reliance on previous assessments on whether leases are onerous;
- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 January 2019 as short-term leases; and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

#### (c) Amounts recognised in profit and loss

The income statement reflects the following amounts relating to leases:

	2019 €
Depreciation charge of right-of-use assets Motor Vehicles	15,683
Interest expense (included in finance costs)	1,261

Operating lease charges to be reflected within profit and loss, utilising the accounting principles of IAS 17 'Leases' had IFRS 16 not been adopted, during the period from 1 January 2019 to 31 December 2019 would have amounted to €16,566. Hence, EBITDA for the year ended 31 December 2019 has been impacted favourably by this amount in view of the adoption of the requirements of IFRS 16.

#### 3. Financial risk management

#### 3.1 Financial risk factors

The Group's activities potentially expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management, covering risk exposures for all Group undertakings, focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group's board of directors provides principles for overall Group risk management, as well as policies covering risks referred to above and specific areas such as investment of excess liquidity. The Group did not make use of derivative financial instruments to hedge certain risk exposures during the current and preceding financial years.

#### (a) Market risk

#### (i) Foreign exchange risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities which are denominated in a currency that is not the respective entity's functional currency. The Group's revenues, purchases and other expenditure, financial assets and liabilities, including financing, are mainly denominated in euro. Accordingly, the Group is not significantly exposed to foreign exchange risk and a sensitivity analysis for foreign exchange risk disclosing how profit or loss and equity would have been affected by changes in foreign exchange rates that were reasonably possible at the end of the reporting period is not deemed necessary.

#### (ii) Cash flow and fair value interest rate risk

The Group's significant instruments which are subject to fixed interest rates comprise loans and receivables to a related party (Note 10), together with borrowings from a related party forming part of Mizzi Organisation and an associate (Note 18). With respect to these instruments, the Group is potentially exposed to fair value interest rate risk in view of the fixed interest nature of these instruments, which are however measured at amortised cost.

The Group's interest rate risk principally arises from bank borrowings (Note 18), and balances with related parties (Note 31), subject to floating interest rates, which expose the Group to cash flow interest rate risk. Management monitors the impact of changes in market interest rates on amounts reported in profit or loss in respect of these instruments. Based on this analysis, management considers the potential impact on profit or loss of a defined interest rate shift that is reasonably possible at the end of the reporting period to be immaterial and accordingly the level of interest rate risk is contained. The Group's operating cash flows are substantially independent of changes in market interest rates.

#### (iii) Price risk

The Group is not significantly exposed to equity price risk in view of the fact that the financial assets at FVOCI held by the Group are not material.

#### 3. Financial risk management - continued

#### 3.1 Financial risk factors - continued

(b) Credit risk

Credit risk arises mainly from cash and cash equivalents, advances to related parties and credit exposures to customers, including outstanding debtors and committed transactions. The Group's exposures to credit risk at the end of the reporting period are analysed as follows:

	Group		Company	
	2019	2018	2019	2018
	€	€	€	€
Financial assets measured at amortised cost:				
Loans and advances (Note 10)	713,352	713,352	713,352	713,352
Trade and other receivables (Note 12)	16,533,137	6,942,866	13,031,488	4,755,798
Cash and cash equivalents (Note 13)	4,909,469	1,083,379	4,082,392	148,459
	22,155,958	8,739,597	17,827,232	5,617,609

The maximum exposure to credit risk at the end of the reporting period in respect of the financial assets mentioned above is equivalent to their carrying amount as disclosed in the respective notes to the financial statements. The Group does not hold any significant collateral as security in this respect.

#### Cash and cash equivalents

The Group principally banks with local financial institutions with high-quality standing or rating. While cash and cash equivalents are also subject to the impairment requirements of IFRS 9, the identified expected credit loss is insignificant.

#### Trade and other receivables (including contract assets)

The Group assesses the credit quality of its customers taking into account financial position, past experience and other factors. It has policies in place to ensure that sales of services are effected to customers with an appropriate credit history. The Group monitors the performance of its trade and other receivables on a regular basis to identify incurred collection losses, which are inherent in the Group's debtors, taking into account historical experience in collection of accounts receivable.

In view of the nature of the Group's activities and the market in which it operates, a limited number of customers account for a certain percentage of the Group's trade and other receivables. Whilst no individual customer or group of dependent customers is considered by management as a significant concentration of credit risk with respect to contractual debts, these exposures are monitored and reported more frequently and rigorously. These customers trade frequently with the Group and are deemed by management to have positive credit standing, usually taking cognisance of the performance history without defaults.

The Group manages credit limits and exposures actively in a practicable manner such that there are no significant past due amounts receivable from customers at the end of the reporting period. The Group's trade and other receivables, which are not credit impaired financial assets, are principally debts in respect of transactions with customers for whom there is no recent history of default. Management does not expect any losses from non-performance by these customers.

#### 3. Financial risk management - continued

#### 3.1 Financial risk factors - continued

(b) Credit risk - continued

#### Impairment of trade receivables (including contract assets)

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets.

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. Contract assets have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for contract assets.

The expected loss rates are based on the payment profiles of sales over a period of time before the reporting date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group adjusts the historical loss rates based on expected changes in these factors. Credit loss allowances include specific provisions against credit impaired individual exposures with the amount of the provisions being equivalent to the balances attributable to credit impaired receivables. On that basis, the loss allowance for the Group as at 31 December 2019 and 1 January 2019 (upon adoption of IFRS 9) was determined as follows:

31 December 2019	Up to 30 days past due	31 to 60 d <b>ays</b> past due	G1 to 90 days past due	91 to 120 days past due	⊧121 days past due	Total
Expected loss rate	0.2% - 1,6%	1,9%	2.1%	2.6%	3.3% - 100%	
Gross carrying amount (€)	201,515	70,779	78,426	46,964	243,631	641,315
Loss allowance (€)	1,792	1,269	1,647	1,221	176,502	182,431
31 December 2018	Up to 30 days past due	31 to 60 days past due	61 to 90 days past due	91 to 120 days past due	+121 days past due	Total
Expected loss rate	0.2% - 1.6%	1.9%	2.1%	2.6%	3.3% - 100%	
Gross carrying amount (€)	318,260	148,248	140,507	63,245	386,420	1,056,680
Loss allowance (€)	3,624	2,817	2,951	1,644	129,532	140,568

The expected loss rates disclosed in the tables above reflect the fact that the 100% loss rate is triggered for receivables which are primarily past due by 780 days or more.

The Group established an allowance for impairment that represented its estimate of expected credit losses in respect of trade receivables. The individually credit impaired trade receivables mainly relate to a number of independent customers which are in unexpectedly difficult economic situations and which are accordingly not meeting repayment obligations. Hence, credit loss allowances in respect of credit impaired balances with corporate trade customers relate to entities which are in adverse trading and operational circumstances. Reversals of credit loss allowances of credit impaired receivables arise in those situations where customers recover from unfavourable circumstances and accordingly start meeting repayment obligations. The Group does not hold any significant collateral as security in respect of the credit impaired assets. The movements in credit loss allowances of these receivables are disclosed in Note 22.

### 3.1 Financial risk factors - continued

(b) Credit risk - continued

Trade receivables and contract assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than a year past due. Credit losses on trade receivables and contract assets are presented as net expected credit losses and other impairment charges within operating profit. Subsequent recoveries of amounts written off are credited against the same line item.

#### Ageing analysis of trade receivables

Categorisation of receivables as past due is determined by the Group on the basis of the nature of the credit terms in place and credit arrangements actually utilised in managing exposures with customers. At 31 December 2019 and 2018, the Group's past due but not impaired receivables and the carrying amount of trade receivables that would otherwise be past due or credit impaired whose terms have been renegotiated, were not deemed material in the context of the Group's trade receivables figures.

#### Amounts owed by related parties

The Group's receivables include amounts due from related parties, primarily from related parties forming part of Mizzi Organisation and other related parties (Note 12) arising from financing transactions that have taken place in the current and prior years. The Mizzi Organization's treasury monitors intra-Group credit exposures at an individual entity level on a regular basis and ensures timely performance of these assets in the context of overall Group liquidity management. The Group assesses the credit quality of these related parties taking into account financial position, performance and other factors. The Group takes cognisance of the related party relationship with these entities and management does not expect any significant losses from non-performance or default.

Since these balances owed by related parties are repayable on demand, expected credit losses are based on the assumption that repayment of the balance is demanded at the reporting date. Accordingly, the expected credit loss allowance attributable to such balances is insignificant.

#### (c) Liquidity risk

The Group is exposed to liquidity risk in relation to meeting future obligations associated with its financial liabilities, which comprise lease liabilities (Note 17), borrowings (Note 18) and trade and other payables (Note 20). Prudent liquidity risk management includes maintaining sufficient cash and committed credit lines to ensure the availability of an adequate amount of funding to meet the Group's obligations.

Management monitors liquidity risk by reviewing expected cash flows, and ensures that no additional financing facilities are expected to be required over the coming year. This is also performed at a central treasury function which controls the overall liquidity requirements of Mizzi Organisation within certain parameters. The monitoring process considers the fact that the Group has significant amounts payable to related parties in respect of property and financing transactions that have taken place in prior years. The Group's liquidity risk is actively managed taking cognisance of the matching of cash inflows and outflows arising from expected maturities of financial instruments, together with the Group's committed bank borrowing facilities and other intra-organisation financing that it can access to meet liquidity needs. In this respect management does not consider liquidity risk to the Group as significant taking into account the liquidity management process referred to above.

### 3.1 Financial risk factors - continued

(c) Liquidity risk - continued

The tables below analyse the Group's and the parent company's principal financial liabilities into relevant maturity Groupings based on the remaining term at the end of the reporting period to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances, as the impact of discounting is not significant.

Group	Less than 1 year €	Between 1 and 2 years €	Between 2 and 5 years €	Over 5 years €	Total €
At 31 December 2019 Lease liabilities Bank borrowings Loans from associate Loans from related party forming part of the Mizzi	16,566 553,200 1,035,318	15,180 553,200 -	27,241 1,659,600 -	- 3,454,123 -	58,987 6,220,123 1,035,318

<b>At 31 December 2018</b> Loans from associate Trade and other payables	1,013,830 354,594	1,013,830 354,594

### 3.2 Capital risk management

The Group's capital is managed at the level of Mizzi Organisation by reference to the aggregate level of equity and borrowings or debt as disclosed in the respective consolidated financial statements of Consolidated Holdings Limited and Mizzi Organisation Limited, together with the financial statements of GSD Marketing Limited and The General Soft Drinks Company Limited. The capital of the entities forming part of the Mizzi Organisation, which have been mentioned above, is managed on an aggregate basis by the Organisation as if they were organised as one entity. The Organisation's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may issue new shares or adjust the amount of dividends paid to shareholders.

The Organisation also monitors the level of capital on the basis of the ratio of aggregated net debt to total capital. Net debt is calculated as total borrowings (as shown in the respective consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as equity, as shown in the respective statement of financial position, plus net debt. The aggregated figures in respect of the Organisation's equity and borrowings are reflected below:

	2019 €	2018 €
Total borrowings Less: cash and cash equivalents	96,867,144 (12,482,058)	101,977,405 (5,553,846)
Net debt Total equity	84,385,086 162,555,885	96,423,559 147,876,117
Total capital	246,940,971	244,299,676
Net debt/total capital	34%	39%

The Organisation manages the relationship between equity injections and borrowings, being the constituent elements of capital as reflected above, with a view to managing the cost of capital. The level of capital of Consolidated Holdings Limited, as reflected in the consolidated statement of financial position, is maintained by reference to its respective financial obligations and commitments arising from operational requirements. In view of the nature of the Group's activities and the extent of borrowings or debt, the capital level at the end of the reporting period determined by reference to the consolidated financial statements is deemed adequate by the directors.

#### 3.3 Fair values of financial instruments

At 31 December 2019 and 2018 the carrying amounts of cash at bank, receivables, payables, accrued expenses and short-term borrowings reflected in the financial statements are reasonable estimates of fair value in view of the nature of these instruments or the relatively short period of time between the origination of the instruments and their expected realisation. The fair value of advances to related parties and other balances with related parties which are repayable on demand is equivalent to their carrying amount.

The fair value of non-current financial instruments for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments. The fair value of the Group's non-current borrowings at the end of the reporting periods is not significantly different from the carrying amounts. The carrying amounts of the other financial liabilities as at 31 December 2019, comprising lease liabilities, are reasonable estimates of their fair value as there have not been significant changes in the Group's internal borrowing rate since the date of transition to IFRS 16. The current market interest rates utilised for discounting purposes, which were almost equivalent to the respective instruments' contractual interest rates, are deemed observable and accordingly these fair value estimates have been categorised as level 2 within the fair value measurement hierarchy required by IFRS 7, '*Financial Instruments: Disclosure*'.

#### 4. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

In the opinion of the directors, the accounting estimates and judgements made in the course of preparing these financial statements are not difficult, subjective or complex to a degree which would warrant their description as critical in terms of the requirements of IAS 1.

As referred to in Note 5 to the financial statements, the Group's land and buildings category of property, plant and equipment are fair valued on the basis of professional advice.

# 5. Property, plant and equipment

### 5. Property, plant and equipment - continued

### Fair valuation of property

The Group's land and buildings, within property, plant and equipment were last revalued on 31 December 2014 by independent professionally qualified valuers. The book value of the property had been adjusted to the revaluation and the resultant surplus, net of applicable deferred income taxes, had been credited to the revaluation reserve in shareholders' equity (Note 14).

The directors have reviewed the carrying amount of the property as at 31 December 2019, on the basis of assessments carried out by the independent professionally qualified valuers. No adjustments to the carrying amounts as at 31 December 2019 were deemed necessary.

Valuations were made on the basis of open market value taking cognisance of the specific location of the property, the size of the site together with its development potential, the availability of similar properties in the area, and whenever possible, having regard to recent market transactions for similar properties in the same location.

The Group is required to analyse non-financial assets carried at fair value by level of the fair value hierarchy within which the recurring fair value measurements are categorised in their entirety (Level 1, 2 or 3). The different levels of the fair value hierarchy have been defined as fair value measurements using:

- Quoted prices (unadjusted) in active markets for identical assets (Level 1);
- Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2);
- Inputs for the asset that are not based on observable market data (that is, unobservable inputs) (Level 3).

The Group's land and buildings, consists of operational property that is owned and managed by a Group undertaking. The recurring property fair value measurements at the end of each financial period presented use significant unobservable inputs and are accordingly categorised within Level 3 of the fair valuation hierarchy.

The Group's policy is to recognise transfers into and out of fair value hierarchy levels as of the beginning of the reporting period. There were no transfers between different levels of the fair value hierarchy during the current and preceding financial years.

A reconciliation from the opening balance to the closing balance of property for recurring fair value measurements categorised within Level 3 of the fair value hierarchy, for the current and preceding financial years, is reflected in the table above.

#### Valuation processes

The valuation of the property is performed regularly on the basis of valuation reports prepared by third party qualified valuers. These reports are based on both:

- information provided by the Group which is derived from the Group undertaking's financial systems and is subject to the entity's overall control environment; and
- assumptions and valuation models used by the valuers; with assumptions being typically market related and based on professional judgement and market observation.

### 5. Property, plant and equipment - continued

The information provided to the valuers, together with the assumptions and the valuation models used by the valuers, are reviewed by designated officers within the Mizzi Organisation. This includes a review of fair value movements over the period. When the designated officers consider that the valuation report is appropriate, the valuation report is recommended to the Group undertaking's Board of directors. The Board then considers the valuation report as part of its overall responsibilities.

At the end of every reporting period, the designated officers assess whether any significant changes or developments have been experienced since the last external valuation. This analysis is usually supported by an assessment performed by the third party property valuers. The officers report to the Board on the outcome of this assessment.

#### Valuation techniques

At 31 December 2019 and 2018, the valuation assessments were performed using a discounted cash flow approach. Throughout this process, the highest and best use of the property has been revised taking cognisance of the outcome of the valuation method applied.

In view of a limited number of similar or comparable properties and property transactions, comprising sales or rentals, in the local market, the valuations have been performed using unobservable inputs. The significant inputs to the approaches used are generally those described below:

- Discounted cash flow ("DCF") approach: considers the free cash flows arising from the projected income streams expected to be derived from the operation of the property, discounted to present value using an estimate of the weighted average cost of capital that would be available to finance such an operation. The significant unobservable inputs utilised with this technique include:

Earnings before interest, tax, based on projected income streams less operating expenditure depreciation and amortisation necessary to operate the hotel, but prior to depreciation and (EBITDA) financing charges;

Growth rate based on management's estimated average growth of the Group's EBITDA levels, mainly determined by projected growth in income streams;

Discount rate reflecting the current market assessment of the uncertainty in the amount and timing of projected cash flows. The discount rate reflects the estimated weighted average cost of capital that would be available for financing such an operation. The discount rate is based on an assumed debt to equity ratio; estimation of cost of equity is based on risk free interest rates adjusted for country risk and equity risk premium adjusted for entity-specific risk factor; estimation of cost of debt is based on risk free interest rates adjusted for country rates adjusted for country risk and estimation of cost of debt is based on risk free interest rates adjusted.

### 5. Property, plant and equipment - continued

Information about fair value measurements using significant unobservable inputs (Level 3), as at 31 December 2019 and 2018:

Description by class based on highest and best use	Valuation technique	Significant unobservable input	Range of unobservable Inputs (weighted average)
Current use as commercial premises (hotel operations)	DCF approach	EBITDA	€4,000,000
		Growth rate Discount rate Perpetuity yield	2% per annum 7.45% (posl-lax) 6%

In relation to the DCF approach, an increase in the projected levels of EBITDA and growth rate would result in an increased fair value of the property, whereas a higher discount rate would give rise to a lower fair value.

At 31 December 2019 and 2018, the directors considered the current use of the property to be equivalent to the highest and best use.

If the land and buildings were stated on the historical cost basis, the amounts would be as follows:

	2019 €	2018 €
Cost Accumulated depreciation	12,090,853 (2,563,837)	12,014,563 (2,373,264)
Net book amount	9,527,016	9,641,299

Bank borrowings in the name of Group undertakings and related parties forming part of Mizzi Organisation are secured on the Group's land and buildings (see Notes 18 and 31).

### 6. Right-of-use assets

The statement of financial position reflects the following assets relating to leases:

	As at 31 December 2019 €	As at 1 January 2019 €
Motor vehicles - Total right-of-use assets	56,369	72,052

The only movement in the carrying amount of right-of-use assets during the year is attributable to depreciation charge amounting to €15,683.

### 7. Investments in subsidiaries

#### Company

Carrying amount	18,415,796	19,856,201

The Group's share of profit of the associate, disclosed in the tables above and in profit or loss, is after tax and non-controlling interests in the associate.

The associates at the end of the financial reporting periods, whose results and financial position affected the figures of the Group, are shown below:

	Registered office	Class of shares held	Percen shar 2019 %	tage of es held 2018 %
Mizzi Associated Enterprises Limited	30 Archbishop Street Valletta Malta	Ordinary shares	51	51
Mellieha Bay Hotel Limited	Mellieha Bay Hotel Marfa Road, Ghadira Malta	Ordinary shares	51	51
Kemmuna Limited	Nineteen Twenty Three, Valletta Road, Marsa Malta	Ordinary shares	-	24

The proportion of the voting power held in Mizzi Associated Enterprises Limited and Mellieha Bay Hotel is 50%. The shareholding in Mizzi Associated Enterprises Limited and Mellieha Bay Hotel Limited is held directly by Consolidated Holdings Limited (51%) and Alf. Mizzi & Sons Limited (49%). Neither of these shareholders is in a position to exercise a dominant influence on the company as they are only entitled under the company's Memorandum and Articles of Association to elect two directors each.

During the current financial year, the Group sold its shareholding in Kemmuna Limited. As a result, the carrying amount of the investment in the associate has been derecognised from the Group's financial statements upon disposal. The resultant gain of €12,126,605 has been recognised in profit or loss and presented within 'Share of profit of associates'. In the company's stand-alone financial statements the related gain of €10,226,197 has been presented within 'Investment and other related income'.

#### Disclosure requirements emanating from IFRS 12 'Disclosure of interests in other entities'.

Mizzi Associated Enterprises Limited's principal activity is the ownership and the development of property for trading and rental purposes. The principal activity of Mellieha Bay Hotel Limited and Kemmuna Limited is the ownership and operation of the Mellieha Bay Hotel and the Comino Hotel respectively. The associates' principal places of business are based in Malta.

The above investments provide strategic partnerships for the Group providing economies of scale and depth within business sectors which are targeted by the Group for diversification or consolidation purposes.

The investments in these associates, which are an unlisted private companies, is measured using the equity method in accordance with the Group's accounting policy. Summarised financial information for the associates are set out below:

The Group's respective share of the net assets reflected in the above disclosure is in substance equivalent to the carrying amount of its investment in the associates except as outlined below. The Group's share of the net assets of MAE, Mellieha Bay Hotel Limited and Kemmuna Limited extracted from the respective financial statements, does not reflect the Group's carrying amount of the investments in the respective entities. The difference arises as a result of fair value adjustments made at the time that MAE acquired Mellieha Bay Hotel Limited and Kemmuna Limited in prior years. Furthermore, there are no significant contingent liabilities relating to the Group's interest in the associates.

Year ended 31 December Opening and closing net book amount	12,057	12,057
<b>At 31 December</b> Cost Provisions for impairment	93,809 (81,752)	94,275 (82,218)
Net book amount	12,057	12,057

The Group's and company's financial assets at FVOCI, consisting primarily of unquoted equity instruments, are fair valued annually. Fair value is mainly estimated by reference to the net asset backing of the investee. The fair value of the Group's financial assets at FVOCI at the end of the reporting period was deemed by the directors to approximate their carrying amount.

#### 10. Loans and advances

	Group and (	Group and Company	
	2019	2018

Loans and advances for the Group and the parent company represent redeemable preference shares issued by a related party forming part of Mizzi Organisation that were allotted to the parent company in the preceding financial year and settled through a dividend distribution. These preference shares are redeemable on or before 31 December 2064 at the discretion of the issuers' Board of Directors and subject to dividends at 3.0% per annum on a non-cumulative basis. In the accounting records of the issuers, such redeemable preference shares are classified as financial liabilities rather than equity, as they meet the necessary criteria established by IAS 32 - "Financial Instruments: *Presentation*".

-	1,148,286	1,148,286	113,592	113,592
			Grou	р
			2019	2018
			€	€
Share of associate's capital reserve				
At beginning of year				186,076
At beginning of year Redemption of capitalised ground rents				186,076 (186,076)

In accordance with Articles 24B and 36 of the Business Promotion Act, transfers are effected by an associate to an incentives and benefits reserve representing the net amount of profits subject to income tax at a reduced rate of tax. Such profits are set aside for the exclusive purpose of financing the upgrading projects within a subsidiary of the associate as approved by Malta Enterprise Corporation in accordance with Article 6 of the Business Promotion Act. The incentives and benefits reserve is not distributable and shall be retained for a period of eight years, which expire at the latest on 31 December 2021, after which it can be distributed by means of a bonus issue.

The capital reserves are not considered by the directors of the respective entities to be available for distribution.

#### 17. Lease liabilities

<b>Non-current</b> Motor vehicles	As at 31 December 2019 €'000 41,139	As at 1 January 2019 €'000 56,747
Current Motor vehicles	15,608	15,305
Total lease liabilities	56,747	72,052

# 17. Lease liabilities - continued

The movement in the carrying amount of these liabilities is analysed in the following table:

	E
As at 1 January 2019	72,052
Payments	(16,566)
Interest charge	1,261
	56,747

The lease liabilities are attributable to arrangements with a related party forming part of Mizzi Organisation.

The total cash outflows for leases in 2019 was €16,566. The contractual undiscounted cash flows attributable to lease liabilities as at 31 December 2019 are analysed in Note 3.1(c).

### 18. Borrowings

#### Group

The Group's banking facilities as at 31 December 2019 amounted to  $\in 8,756,847$  (2018:  $\notin 9,393,201$ ). These facilities are mainly secured by:

- (a) General hypothec given by the subsidiary for an amount of €9,343,000 (2018: €9,343,000) over assets, supported by a special hypothec over property for the same amount;
- (b) General hypothecary guarantee by a related party forming part of Mizzi Organisation for the amount of €6,243,000 (2018: €6,243,000) over assets; and
- (c) Guarantees by a related party forming part of Mizzi Organisation for €3,100,000 (2018: €3,100,000).

c

### 18. Borrowings - continued

The Group's bank borrowings are entirely, subject to variable rates of interest linked to Euribor. The weighted average effective interest rates for bank borrowings at the end of the reporting period are as follows:

	2019	2018
Bank loans	2%	2%
Maturity of the Group's non-current bank borrowings:		
	2019 €	2018 €
Between 1 and 2 years Between 2 and 5 years Over 5 years	453,743 1,417,509 3,241,886	444,337 1,389,280 3,723,855
	5,113,138	5,557,472

The loans from an associate are repayable on demand, unsecured and until 31 December 2018 it was subject to a fixed interest rate of 3%.

The loans from related party forming part of Mizzi Organisation are unsecured, subject to weighted average floating interest of 3.15% (2018: 3.15%) per annum and repayable as follows:

	2019 €	2018 €
Within 1 year Between 1 and 2 years Between 2 and 5 years	375,180 122,169 -	359,972 366,209 350,366
	497,349	1,076,547

### Company

The company's banking facilities as at 31 December 2019 amounted to €23,300 (2018: €23,300). These facilities are mainly secured by guarantees by a related party forming part of Mizzi Organisation.

#### 19. Deferred taxation

#### Group

Deferred income taxes are calculated on all temporary differences under the liability method and are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled based on tax rates (and tax laws) that have been enacted by the end of the reporting period. The principal tax rate used is 35% (2018: 35%), with the exception of deferred taxation on the fair valuation of non-depreciable property which is computed on the basis applicable to disposals of immovable property i.e. tax effect of 10% (2018: 10%) of the transfer value.

### 19. Deferred taxation - continued

The movement in the deferred tax is as follows:

	2019 €	2018 €
At beginning of year Movement in deferred tax liability determined on the basis applicable to property disposals: Property, plant and equipment - recognised in other	1,929,460	1,510,959
comprehensive income (Note 15) Realisation through asset use (Note 26) Deferred income taxes on temporary differences	(6,524) (6,893)	24,385 (6,893)
arising on depreciation of property, plant and equipment (Note 26) Deferred income taxes attributable to unabsorbed	(30,931)	5,718
capital allowances (Note 26)	•	395,291
At end of year	1,885,112	1,929,460

All the amounts disclosed in the table above, which have been referenced to Note 26, are recognised in profit or loss. The other amounts referenced to Note 15, have been recognised directly in equity in other comprehensive income.

The balance at 31 December represents:

	2019 €	2018 €
Temporary differences arising on fair valuation of property	1,235,509	1,248,926
Deferred taxation arising on transfer of property from Group undertakings	279,525	279,525
Temporary differences arising on depreciation of property, plant and equipment	370,078	401,009
	1,885,112	1,929,460

The recognised deferred tax assets and liabilities are expected to be recovered or settled principally after more than twelve months.

#### 19. Deferred taxation - continued

At 31 December 2019 and 2018, the Group had the following unutilised tax credits and temporary differences:

	Unrecognised		Recognised	
	2019	2018	2019	2018
	€	€	€	€
Unutilised tax credits arising from:				
Unabsorbed capital allowances	203,645	200,741	-	-
Unabsorbed tax losses	26,917	5 <b>#</b> 6		540
Unabsorbed capital losses	10,701		-	
Deductible temporary differences arising on property,				
property, plant and equipment	2,364	3 <b>.</b>	3 <b>.</b>	3 <b>4</b> .3
Deductible temporary differences arising from credit loss				
allowances in respect of trade and other receivables	182,430	140.568	-	-
Deductible temporary differences arising from credit loss		,		
allowances in respect of financial assets at FVOCI	81,752	82.218	-	-
Taxable temporary differences arising on depreciation	,	,		
of property, plant and equipment		-	(1,057,365) (	1,145,740)

The unrecognised deferred tax assets at the end of the reporting periods have not been reflected in these financial statements due to the uncertainty of the realisation of the tax benefits. Whereas tax losses have no expiry date, unabsorbed capital allowances are forfeited upon cessation of the trade.

#### Company

At 31 December 2019, the company had unutilised tax credits arising from unabsorbed capital allowances amounting to  $\in$ 200,741 (2018:  $\in$ 200,741). At the end of the reporting period, the company also had deductible temporary differences arising on provisions for impairment of financial assets at FVOCI, amounting to  $\in$ 81,752 (2018:  $\in$ 81,752). The related deferred tax assets have not been recognised in these financial statements due to the uncertainty of the realisation of the tax benefits. Unabsorbed capital allowances are forfeited upon cessation of the trade.

### Net debt reconciliation

The principal movements in the Group's net debt related to cash flow movements and are disclosed as part of the financing activities in the statement of cash flows.

### 29. Commitments

### Capital commitments

Commitments for capital expenditure not provided for in these financial statements are as follows:

	2019 €	2018 €
Authorised but not contracted for	128,810	305,000

Operating lease commitments - where a Group undertaking is the lessee

As at 31 December 2018, a Group undertaking has a motor vehicle leasing arrangement with a related party, which is a company forming part of the Mizzi Organisation, whereby operating lease rentals amounting to  $\in$ 11,347 are payable annually for the right to use assets owned by the related party in the course of the respective company's operations.

With effect from 1 January 2019, the Group has recognised right-of-use assets in accordance with the requirements of IFRS 16 (Note 6).

### 30. Contingencies

(a) The company, together with its subsidiary and related parties forming part of Mizzi Organisation, is jointly and severally liable in respect of guarantees given to secure the banking facilities of Group undertakings and related parties forming part of Mizzi Organisation up to a limit of €79,376,000 (2018: €79,376,000) together with interest and charges thereon. These guarantees are supported by general hypothecary guarantees for the amount of €81,482,000 (2018: €81,482,000) over the company's assets.

The company's subsidiary, together with related parties forming part of Mizzi Organisation, are jointly and severally liable in respect of guarantees given to secure the banking facilities of Group undertakings and related parties forming part of Mizzi Organisation up to limits of €48,160,000 (2018: €48,160,000), together with interest and charges thereon. These guarantees are supported by special hypothecary guarantees over the subsidiary's property for the amount of €29,000,000 (2018: €29,000,000).

- (b) The company has undertaken to provide financial support to a subsidiary so as to enable the entity to meet its liabilities as they fall due. The subsidiary's profit for the year ended 31 December 2019 amounted to €1,405,880 (2018: €1,100,463) and as at 31 December 2019 its current liabilities exceeded its current assets by €548,006 (2018: €881,478).
- (c) At 31 December 2019, the subsidiary had contingent liabilities amounting to €5,610 (2018: €6,608) in respect of guarantees business issued by the bank on its behalf in favour of third parties in the ordinary course of business.
- (d) As at 31 December 2019, a subsidiary had objections filed with the Commissioner of Inland Revenue over assessments raised relating to basis years 1990 and 1993 to 1995 amounting to €2,928, in respect of which no provision has been made in these accounts.

#### 31. Related party transactions

Consolidated Holdings Limited and its subsidiary form part of the Mizzi Organisation. The Mizzi Organisation is not a legal entity and does not constitute a Group of companies within the meaning of the Maltese Companies Act (Cap. 386). The Organisation is a conglomerate of companies principally comprising Consolidated Holdings Limited and Mizzi Organisation Limited, together with all their respective subsidiaries, The General Soft Drinks Company Limited and GSD Marketing Limited.

The entities constituting the Mizzi Organisation are ultimately fully owned by Daragon Limited, Demoncada Holdings Limited, Demoncada Limited, Investors Limited and Maurice Mizzi. Members of the Mizzi family in turn ultimately own and control the above mentioned companies.

Accordingly, the members of the Mizzi family, the shareholder companies mentioned above, all entities owned or controlled by the members of the Mizzi family and the shareholder companies, the associates of entities comprising the Organisation and the Organisation entities' key management personnel are the principal related parties of the entities forming part of the Mizzi Organisation.

Trading transactions with these related parties would typically include interest charges, management fees, service charges and other such items which are normally encountered in a Group context.

#### Group

In the ordinary course of their operations, Group undertakings sell services to companies forming part of the Organisation for trading purposes and also purchase goods and services from these companies.

In the opinion of the directors, disclosure of related party transactions, which are generally carried out on commercial terms and conditions, is only necessary when the transactions effected have a material impact on the operating results and financial position of the Group. The aggregate invoiced amounts in respect of a considerable number of transaction types carried out with related parties are not considered material and accordingly they do not have a significant effect on these financial statements.

Except for transactions disclosed or referred to previously, the following significant operating transactions, which were carried out principally with related parties forming part of Mizzi Organisation, have a material effect on the operating results and financial position of the Group:

	2019 €	2018 €
Purchases of goods and services		
Purchases of goods held for resale and services	191,868	55,604
Purchase of property, plant and equipment	463,956	503,524
Management fees payable	182,415	178,590

### 31. Related party transactions - continued

The transactions disclosed above were carried out on commercial terms. Year-end balances with related parties, arising principally from the transactions referred to previously, are disclosed in Notes 12, 18 and 20 to these financial statements. Such balances are repayable on demand, unsecured and interest free unless disclosed otherwise in the respective notes.

The Group's expenditure reflected in profit or loss comprises amounts recharged from related parties forming part of Mizzi Organisation of €118,190 (2018: €204,764).

Key management personnel comprise the directors of the company and of the other Group undertaking. Key management personnel compensation, consisting of directors' remuneration as disclosed in Note 27, has been recharged by a related party forming part of Mizzi Organisation.

Amounts owed to related parties as at 31 December 2019 of €73,956 (2018: €205,139) are subject to interest at 3.6% (2018: 3.6%). Interest payable to related parties is disclosed in Note 25.

#### Company

The company's expenditure reflected in profit or loss comprises amounts recharged from a related party forming part of Mizzi Organisation of €34,583 (2018: €6,305).

#### 32. Events after the reporting date

With effect from March 2020 onwards, the outbreak of COVID-19 impacted negatively a number of operations of companies within the Mizzi Organisation. Whilst some sectors and certain companies were hit worse than others, Group management invested substantial efforts to safeguard as many jobs as possible and ensure survival of all the respective companies within the Organisation. The hospitality industry was brought to a standstill as a result of the airport closure and other measures introduced by Government. The hotel lost all its principal source of income for a period of around 4 months. On a positive note, the hotel managed to remain operative up to a certain extent, having been awarded contracts to provide alternative accommodation to front liners assisting patients infected by the virus.

All companies forming part of the Organisation embarked on a cost-cutting exercise in areas such as payroll costs, direct departmental costs together with selling and administrative expenses. Particular emphasis has also been placed on the credit control function so as to ensure cash receipts from customers and debtors are flowing in regularly and in a sustained manner in order to meet cash outflows. Revised favourable credit term arrangements were negotiated with a number of suppliers, though substantially no concessions were granted to the Organisation by its property lessors.

On a group wide basis, the Mizzi Organisation took a number of initiatives to ensure effective management of available liquidity to fund the requirements of all operations impacted by COVID-19. The Organisation managed to secure favourable arrangements with banks in relation to the postponement of bank loan repayments and with suppliers in relation to the postponement of major capital expenditure payments. A number of Organisation companies have taken advantage of available Government aid, such as the deferral of VAT and tax payments, wage supplement schemes and quarantine leave supplements. The Organisation also encouraged utilisation of vacation leave to decrease accruals in this regard.

### 32. Events after the reporting date - continued

17

 $\tilde{m}_{i}^{\prime}$ 

In view of the current situation brought about by the COVID-19 pandemic, the Organisation has prepared detailed financial and cash flow projections covering all its business lines for the financial years ended 31 December 2020 and 2021, based on historical financial information registered to date during 2020 and forecasts, factoring in the disorder created by the COVID-19 pandemic. These projections have been compiled as part of the preparation of a revised business plan. The projections are based on pessimistic assumptions for the base case scenario, reflecting the anticipated dismal performance during 2020 of specific Organisation business lines referred to above, with a gradual recovery in performance for the automotive, hotel, retail and catering businesses throughout 2021. The projected 2021 financial results for the core businesses within the Organisation are assumed to be significantly lower when compared to 2019 financial results. The projections also contemplate a stressed case scenario with sever business conditions throughout 2021. The cash flow projections take into account the financial support secured by the Organisation under the COVID-19 quarantee scheme managed by the Malta Development Bank. The sanction letters in the name of Mizzi Organisation Limited for the secured additional facilities amounting to €12 million in aggregate, have been approved and issued by the respective banks. These funds will assist the Organisation in honouring committed capital expenditure and commitments with trade creditors.

The forecast for 2020 contemplates the projected existence of a significant liquidity buffer at the end of the year notwithstanding the expected adverse financial results, whilst positive cash flow generation is anticipated for 2021. The directors are further encouraged that as at the date of approval of these financial statements, all the business units of the Group are back in business and fully operational within the restrictions and guidelines issued by the Health Authorities. Furthermore, as business started to pick up gradually during the recent months, it was noted that actual performance across all business segments has been better than that forecasted within the 2020 projection.

Assuming stressed conditions are experienced throughout 2021, such that the projected financial results from the automotive business, the hotel, the retail and catering businesses are subdued in line with 2020 performance, whilst simultaneously projected property sales do not materialise, the Organisation would still be in a position to fund its group wide operations taking cognisance of liquidity available.

The Boards of Directors of Mizzi Organisation Limited and of the companies constituting the Mizzi Organisation feel confident that with the measures taken, the secured financing arrangements and the diversity of the Organisation's business lines, the companies within the Organisation shall overcome the disruptions brought about by this pandemic. The directors consider the Organisation and all Organisation companies to be a going concern. Hence the going concern assumption in the preparation of these financial statements is considered appropriate and there are no material uncertainties which may cast significant doubt about the ability of the Organisation and its companies to continue operating as a going concern.

#### 33. Statutory information

Consolidated Holdings Limited is a limited liability company and is incorporated in Malta.
